QUERKUS®

FINEST OAK
COLLECTION

To enhance the natural beauty of oak we always recommend Querkus panels with brushed finish, this highlights the grain structure and gives the veneer a tactile dimension.

Brushed

Brushed B1: the soft summer wood is given a subtle and light brush treatment. Brushed B1 is possible to apply both single or double-sided, except Terra in Select version is only applied with Brushed B1 on the front side.

Brushed B2 and B3: the structure can be seen more in depth, with the effect being comparable to sand-blasting. Brushed B2 and B3 must always be applied double-sided for panel stability.

Brushed B1

Brushed B2

Brushed B3

Plain

These panels are pre-sanded as standard with 120 grit. The surface is smooth and and should be further sanded and finished.
