ASTRATA®

WOOD FOR  
WALLS

DECOSPAN.

Discover Astrata and experience natural wood at its finest. Our slats are the perfect addition to your design, adding a refined architectural element to any interior space.

#### OPEN THE DOOR TO A TOUCH OF WOOD

Our veneered slats combine the look and feel of solid wood but are lighter and easier to manipulate.

#### EASE OF USE

Astrata slats are the easiest to use, decorative veneered beams in the market. Available in either a ready-to-use version, the prefinished slats, or in an easy-to-manipulate version, the unfinished oak natural.

#### ENDLESSLY VERSATILE

The sky is the limit when it comes to ways of using our veneered beams. You can use them for walls, ceilings, room dividers, frames ... You can apply them horizontally, vertically and everything in between. Let your creativity run free.

## ASTRATA SLATS

Easy-to-use and install wood veneered beams  
for wall and ceiling applications  
Available from stock in 3 dimensions and 4 looks.

### 3 DIMENSIONS

1-1/4" x 3-3/4" x 9' 11-5/8"  
(31 x 96 x 3040 mm)

1-1/4" x 3-1/8" x 9' 11-5/8"  
(31 x 80 x 3040 mm)

1-1/4" x 2-1/2" x 9' 11-5/8"  
(31 x 65 x 3040 mm)

Astrata slats are produced with fire  
retardant, TSCA Title VI compliant  
boards. During the production  
process, no formaldehyde is added.  
All products are FSC®-certified.

Technical details

- DIMENSIONS  
 1-1/4" x 3-3/4" x 9' 11-5/8" (31 x 65 x 3040 mm)  
 1-1/4" x 3-1/8" x 9' 11-5/8" (31 x 80 x 3040 mm)  
 1-1/4" x 2-1/2" x 9' 11-5/8" (31 x 96 x 3040 mm)
- COMPOSITION  
 Top layer of real wood veneer stained and UV protected with six layers of UV-lacquer, applied sequentially by means of a rolling technique and intermediate curing; a core of MDF with a high density of 580 kg/m³ (±30 kg/m³) and a backing layer of veneer. The sides of the beams are finished with a veneer by application of a veneer edge band.
- BONDING  
 The HPLT (High Pressure Low Temperature) press procedure used by Decospan guarantees the best quality for each panel. The process follows the DSI-method, ensuring complete saturation of the wood fibers and a significantly tight bond.  
 The edge bands on the sides of the beams are bonded with an EVA adhesive. No formaldehyde is added during the production process.
- FINISHING  
 Stained with water-based colorants and protected with six layers ultra-low emitting acrylate urethane UV-cured varnish (99.5% solids), applied sequentially by means of a rolling technique and intermediate curing; matt finish (2 ±1).
- PACKAGING  
 The slats are packed per 8, 4 or 3 (depending on the size) in a cardboard box. The top and bottom sides of the box are additionally protected with an MDF cover plate.
- CARE  
 Normal maintenance involves no more than removing dust with a soft, dry cloth. A slightly damp cloth can also be used, but avoid using too much water. Tough dirt can be removed using water and a mild cleaning agent or a detergent. Never use a cleaner based on acetone or ethyl butyl acetate without consulting Decospan, as these substances can leave marks that cannot be removed.

Matrix

UNFINISHED	PREFINISHED		
Allow to finish them immediately to your own liking using oil, stain or lacquer to make them fit perfectly into the project, along with the rest of the furniture	Ready-to-use, no needed after-treatment		
Unfinished Oak	Milk Oak	Ivory Oak	Desert Oak
